

What Do I Do

C **Fmaj7**
What do I do with this love burning deep inside
C **Fmaj7**
Should I let it rest, should I let it slide
Dm **F** **C** **F** **F/G/Am**
Like an abandoned child adrift in the terror of the street
Am **F** **C**
What do I do with this love next time we meet

What do I do with this love that keeps me up all night
With an unknown passion that won't give up the fight
That makes me feel like a stranger in some foreign land
Waiting like an orphan for the touch of your hand

Am **C**
God, I tried not to let it happen
Am **C**
I knew the pain that was in store
Am **C**
And each time it gets worse
D **F** **C/Em/Am (3X) Hold last Am**
Than it was before

Am **C**
But I couldn't help it
Am **C**
I was taken by surprise
Am **C**
Could've been anything about you
D **F**
Your smile, your style, your eyes

What do I do with this love ripping at my heart
Torturing my soul, tearing me apart
That keeps on growing with each desperate dawn
What do I do with this love now that you're gone
